Personal Data

Place of birth: Torino, Italy Date of birth: July, 13th 1993 Citizenship: Italian

- Work address: Commissariat à l'Energie Atomique et aux énergies alternatives,
DRT/LIST/DIASI/SIALV/LVML,
Bât. 861 p. 42,
F-91120 Palaiseau,
France
- Research interests: ML/AI, data science, computer vision, spectroscopy, chemometrics, geometry, field theory
- Description: My research interests cover physical and computational problems, the common thread being the relation between applied mathematics and artificial intelligence, from data acquisition to the analysis. At present, I focus on two principal research areas, related to [computer vision](#) and data science. The first is the analysis of hyperspectral images (often issued from spectroscopy techniques, such as [LIBS](#) or [NIR](#) imagery) using supervised and unsupervised methods for object detection and (panoptic) segmentation of scenes. In particular, I am interested in geometric deep learning and [representation learning](#) for computer vision: I study the properties of hyperspectral images using [graph neural networks](#) and geometry, in order to recover the full extent of the information present in the images. The other is the application of ML and AI to experimental physics. Specifically, I took an interest in [explainable AI](#) methods and the definition of uncertainties in deep learning. I actively work in the development of deep learning techniques capable of characterize each measurement, in order to exploit statistical models in order to reject outliers and to provide a measure of the uncertainty of the prediction. I am also interested in applications of machine and deep learning to the theory of mathematics and physics, such as algebraic geometry and string theory, for their fascinating structures and their ability to provide geometrical insights on the behaviour of neural network architectures.

Work Experience

- 12/2022 – present: **Research Engineer**
Commissariat à l'Energie Atomique et aux énergies alternatives, Saclay, France
Description: research on computer vision and AI for hyperspectral imagery at the laboratory SIALV/LVML.
- 09/2022 – 12/2022: **Post-doctoral Researcher**
Commissariat à l'Energie Atomique et aux énergies alternatives, Saclay, France
Description: research on tensor methods for AI and applications to hyperspectral imagery at the laboratory SIALV/LVML.
- 02/2021 – 08/2022: **Post-doctoral Researcher**
Commissariat à l'Energie Atomique et aux énergies alternatives, Saclay, France
Description: joint post-doc between the SEARS/LANIE and the SIALV/LVML on applications of AI to laser-induced breakdown spectroscopy.
- 10/2017 – 12/2020: **Ph.D. Graduate Researcher**
Università degli Studi di Torino, Italy
Description: research in theoretical physics (string theory) and AI applications.
- 10/2017 – 10/2020: **Scientific Associate Researcher**
I.N.F.N. (National Institute for Nuclear Physics), Torino, Italy
Description: scientific association as Ph.D. student.
- 10/2018 – 07/2020: **Teaching Assistant**
Università degli Studi di Torino, Italy
Description: tutorship and exercise sessions for students of the B.Sc. in Physics.

Education

- 10/2017 – 12/2020 **Ph.D. Fellow in Physics and Astrophysics**
Università degli Studi di Torino, Italy
Advisor: Igor Pesando
Thesis: *D-branes and Deep Learning: Theoretical and Computational Aspects In String Theory*
Defended: December, 18th 2020
- 10/2015 – 10/2017: **M.Sc. in Physics**
Università degli Studi di Torino, Italy
Curriculum: theoretical physics
Dissertation: *Standard Model-like Scenarios in String Theory: Non Abelian D-brane Rotations and the Classical Bosonic String*
Final grade: 110/110 cum laude
- 10/2012 – 07/2015: **B.Sc. in Physics**
Università degli Studi di Torino, Italy
Dissertation: *Perturbative Analysis: Resurgent Transeries and Hyperasymptotics*
Final grade: 110/110 cum laude

Teaching Experience and Outreach Activity

- 02/2023 – present: **Interns supervision**
Position: *Commissariat à l'Energie Atomique et aux énergies alternatives*
Role: supervision of M.Sc. interns
- 01/2020 – 07/2020: **Teaching Assistant in Physics**
Grant: *Università degli Studi di Torino*
Course: *Physics 1* (1st year B.Sc. in Physics)
Role: tutorials and exercise sessions
- 01/2019 – 07/2019: **Teaching Assistant in Physics**
Grant: *Università degli Studi di Torino*
Course: *Waves, Fluids and Thermodynamics* (1st year B.Sc. in Physics)
Role: tutorials and exercise sessions
- 11/2015: **Teaching Staff**
Course: *Physics at LHC* (outreach project for high school students)
Funds: *Piedmont* regional grant for Italian scientific schools
Role: lectures and exercises on high energy physics (in English)

Reviewing Activity

- 2023 – present: **Expert for the French National Agency for Research**
Role: expertise for the [ANR](#) (*Agence Nationale de la Recherche*)
- 2022 – present: **Referee and reviewer**
Role: review and expertise for [Mach. Learn.: Sci. Technol.](#)
review and expertise for [Spectrochim. Acta B](#)
review and expertise for [J. Phys. Comm.](#)

Fellowships, Grants and Distinctions

- 2023: EU funding for the COST Action [CA22130](#) [4 years]
(*Comprehensive Multiboson Experiment-Theory Action (COMETA)*)
Role: **Representative** of France in the **Management Committee**
Co-leader of the *WG2 Technological innovation in data analysis*
- 2020: grant as teaching assistant of the *Università degli Studi di Torino* (6 months, from 01/2020)
- 2019: student elected in the *Department Council* as Ph.D. representative
- 2018: student elected in the *Department Council* as Ph.D. representative
- 2017: Ph.D. scholarship assigned by the *Università degli Studi di Torino* (3 years, from 10/2017)

Organization

- 06/2023: **At the interface of physics, mathematics and artificial intelligence**
Pollica, Italy — <https://agenda.infn.it/event/33851/>

Visits, Training and Internships

12/2018	Winter school and research visit Location: Galileo Galilei Institute for Theoretical Physics (Arcetri, Firenze, Italy)
12/2017 - 01/2018	Winter schools and research visit Location: Galileo Galilei Institute for Theoretical Physics (Arcetri, Firenze, Italy)
01/2017 - 10/2017:	I.N.F.N. training for the M.Sc. degree Location: National Institute for Nuclear Physics (I.N.F.N., Torino, Italy)
04/2015 - 06/2015:	I.N.F.N. training for the B.Sc. degree Location: National Institute for Nuclear Physics (I.N.F.N., Torino, Italy)

IT Skills

Programming languages:	Python, R, C++, ROOT, Matlab/Octave, PHP, Javascript, Maxima, Wolfram Mathematica, Java
Markup/scripting languages:	bash, HTML, Markdown, RMarkdown
OSs and Distributions:	Ubuntu (main distribution), Arch Linux, Debian, CentOS, Microsoft Windows
Shell:	bash, zsh, PowerShell
Deep learning ecosystem:	Detectron2, PyTorch, PyTorch Geometric, PyTorch Lightning, JAX, Tensorflow, Keras, Optuna, Scikit-optimize
Data Analysis ecosystem:	Scipy/Numpy/Sympy ecosystem, Statsmodels, Scikit-learn, LightGBM, XGBoost, Pandas
Visualization:	Matplotlib, Seaborn, Plotly, Open3D, Tensorboard, TidyR, Caret, Leaflet
Frameworks:	VSCode, Jupyter Lab and Notebook, RStudio; VIM (with plugins); Git for version control; GitBook and Sphinx for documentation
System Administration:	personal instance of Nextcloud, administration and web design of the journal club webpage on a Raspberry Pi Apache+PHP+MariaDB installation (GitHub)
Other certifications:	ECDL Core Full (<i>European Computer Driving Licence</i> , 04/2012)

Language Skills

Italian:	native speaker
English:	proficient user — certifications: Cambridge FCE (pass with A), EFCELT at European level C2
French:	proficient user

Personal Interests

- Passioned by latest advances in AI/ML and their applications to real world scenarios
- Diploma in musical theory and melodic dictation (*Diploma di Solfeggio e Teoria Musicale*), and diploma in complementary piano studies (*Diploma di Pianoforte Complementare*) for violin
- 10 years experience as basketball player and 2 years experience as basketball coach for youth teams
- Blood donor for the AVIS (*Italian Association of Volunteer Blood Donors*)

Coursework and Certifications

12/2020: **Reinforcement Learning**

University of Alberta (via Coursera.org — credential ID: [X6QTKFZDEGB2](#))

Fundamentals of Reinforcement Learning (credential ID: [SA4PFAGGR6B5](#))

Sample-based Learning Methods (credential ID: [KCPZAVVUT98A](#))

Prediction and Control with Function Approximation (credential ID: [3L9BL5LH9K4H](#))

A Complete Reinforcement Learning System (Capstone) (credential ID: [C5JFZB5AGF4C](#))

10/2020: **Data Science Specialisation**

John Hopkins University (via Coursera.org — credential ID: [QDGGFSKG8VVS](#))

The Data Scientist's Toolbox (credential ID: [J6VC2AZMGGUG](#))

R Programming (credential ID: [8D7TP7FHQWK2](#))

Getting and Cleaning Data (credential ID: [E3KT2J9HPKGR](#))

Exploratory Data Analysis (credential ID: [3GYQ9UQQS3JX](#))

Reproducible Research (credential ID: [84LX7JZYKR9W](#))

Statistical Inference (credential ID: [2CSSYG79AQ2W](#))

Regression Models (credential ID: [YGGYSZZXM46R](#))

Practical Machine Learning (credential ID: [J9MXMYRQ47ZD](#))

Developing Data Products (credential ID: [2CEYYPDYG7PB](#))

Data Science Capstone (credential ID: [SCJFP5JM34HR](#))

06/2020: **AI for Medicine**

deeplearning.ai (via Coursera.org — credential ID: [ZXW8Y3UU4UCY](#))

AI for Medical Diagnosis (credential ID: [GPNE8X3862JX](#))

AI for Medical Prognosis (credential ID: [8NPQDS4UFMJF](#))

AI for Medical Treatment (credential ID: [52YHADQMZCM8](#))

05/2020: **Deep Learning**

deeplearning.ai (via Coursera.org — credential ID: [N2FWFZ9W42V2](#))

Neural Networks and Deep Learning (credential ID: [XFKPYRXVVEKN](#))

Improving Deep Neural Networks: Hyperparameter (credential ID: [ED599JTLVX2](#))

tuning, Regularization and Optimization

Structuring Machine Learning Projects (credential ID: [8KXABGGZWRER](#))

Convolutional Neural Networks (credential ID: [2ZBR9Q9JLVAL](#))

Sequence Models (credential ID: [LP9WPTVB4KV3](#))

04/2020: **Machine Learning**

University of Stanford (via Coursera.org — credential ID: [SDLSE9NP4XMH](#))

Talks and Posters

- 2023: **HyperPCA: À l'interface entre la théorie des matrices aléatoires et la spectroscopie du plasma induit par laser**
[Talk](#) — SFPT-GH, Paris 2023, France
- Simulation-based Synthetic Data Augmentation and Multitask Learning**
[Poster](#) — ANIMMA 2023, Lucca, Italy
- 2022: **Machine learning for complete intersection Calabi-Yau manifolds**
[Poster](#) — NeurIPS 2022, Machine Learning and the Physical Sciences, New Orleans 2022 (hybrid)
- Helping AI Understand Physics: Trustworthy Approaches to Hyperspectral Imaging**
Seminar — Séminaire technique LVML, C.E.A. Paris-Saclay, France
- Computer Vision for Physics: Theory and Experiments**
Seminar — Webinaire AllegrIA, C.E.A. Paris-Saclay, France (video conference)
- Deep Multi-task Mining Calabi-Yau Manifolds**
[Seminar](#) — Learning to Discover 2022, Orsay, France
- HyperPCA**
Une méthode d'analyse innovante pour l'imagerie hyperspectrale
[Poster](#) — Journées Scientifiques de l'ISAS, C.E.A. Paris-Saclay, France
- 2021: **Applying Machine Learning to String Theory**
[Lecture](#) — XVII Avogadro Meeting, Firenze, Italy
- Sparse Representations and Kernel-based PCA**
Powerful Tools to Extract Elemental Maps from Noisy Data Obtained in LIBS Mapping of Materials
[Seminar](#) — EMSLIBS 2021, Gijón, Spain (video conference)
- HyperPCA**
An Advanced Framework of Principal Components Analysis for Hyperspectral Images
[Seminar](#) — PTC Meeting 2021, C.E.A. Grenoble, France
- Algebraic Geometry and Computer Vision**
Inception Neural Network for Calabi-Yau Manifolds
[Seminar](#) — Data, Numbers, and Geometry - DANGER - 2021 (video conference)
- Algebraic Geometry and Computer Vision**
Inception Neural Network for Calabi-Yau Manifolds
[Seminar](#) — Seminari di Algebra e Geometria Algebrica, University of Torino, Italy (video conference)
- Computer Vision and Algebraic Geometry**
AI for Theoretical Physics
[Poster](#) — IDAI 2021 (video conference)
- Intelligenza Artificiale tra Geometria e Fisica**
Seminar — Escuela Alessandro Manzoni, Buenos Aires, Argentina (video conference)
- An AI Perspective on Phenomenology and Strings**
[Seminar](#) — C.E.A. Paris-Saclay, France (video conference)
- 2020: **Time Dependent Defect CFT and Excited Spin Fields**
[Poster](#) — Cortona Young (video conference)
- 2019: **Spin Fields as Point-like Defects on the Worldsheet**
[Poster](#) — Università Federico II, Napoli, Italy

Training Schools

- 07/2021: **INRIA-DFKI European Summer School on Artificial Intelligence**
Online event — <https://idessai.inria.fr>
- 05/2020: **Cortona Young**
Online event — <https://www.ggi.infn.it/showevent.pl?id=377>
- 12/2019: **XV Avogadro Meeting on Strings, Supergravity and Gauge Theories**
Napoli, Italy — <https://agenda.infn.it/event/19816/overview>
- 10/2019: **TFI 2019: Theories of Fundamental Interactions**
Torino, Italy — <https://agenda.infn.it/event/20096/overview>
- 03/2019: **String Theory from a Worldsheet Perspective**
Firenze, Italy — <https://www.ggi.infn.it/showevent.pl?id=289>
- 12/2018: **LACES 2018 - Lezioni Avanzate di Campi e Stringhe**
Firenze, Italy — <http://laces.web.cern.ch/laces/LACES18/index18.html>
- 05/2018: **XXXVI Convegno Nazionale di Fisica Teorica**
New Frontiers in Theoretical Physics
Cortona, Italy — <https://agenda.infn.it/event/14362/>
- 01/2018: **GGI Lectures on the Theory of Fundamental Interactions**
Firenze, Italy — <http://webtheory.sns.it/ggilectures2018/>
- 12/2017: **LACES 2017 - Lezioni Avanzate di Campi e Stringhe**
Firenze, Italy — <http://laces.web.cern.ch/laces/LACES17/index17.html>
